DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for Claim 6, examiner's amendment was given in a telephone interview with James Duzan on August 29, 2003.

The application has been amended as follows:

In the Claims:

Cancel claims 3-5, 8 and 9.

In claim 6, Line 8, after "substrate" insert -- a gel elastomer contacting a second portion of the active surface of the at least one semiconductor die --.

In claim 6, Lines 10-11, delete "a gel elastomer contacting a second portion of the active surface of the at least one semiconductor die."

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: the prior art does not disclose or make obvious attaching a heat sink to a portion of the active surface of a die by an adhesive covering a gel elastomer on the active surface wherein an encapsulation material covers a portion of the substrate, edges of said die and at least a bond pad formed on portion of the active surface, while the encapsulation

material excludes covering the heat sink including all the limitations of the independent claims.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
